

Lesson 1: Stable Management

Ages 12-16 | Learn - Research - Apply - Repeat

1. What is stable management?

2. Why is stable management important?

3. List three principles of good stable management.

4. Why should you feed your horse often during the day?

5. Why should your horse have an unlimited supply of fresh water?

6. What are the three principles of a suitable stable?

Well done, EquiPeeps. Don't forget three of the principles of success above: Persistence, Research and Repetition, and the ones below.

If you want to be wealthy and want to be wise, then early to bed and early to rise.

HORSEY HELPERS

Please remember that the Horsey Helper is responsible for the pony's or horse's welfare. These lessons are designed to encourage children to participate actively in caring for their animal's welfare, not to take full responsibility for it.
